Two House and One Seasonal Soup plus a Farmer's Market special are also featured. Additionally, an eclectic and critically acclaimed mix of boutique wines and local microbrews are served at the restaurant.

*Selections may change daily, as the creation of each dish is influenced by the seasonality and availability of only the finest ingredients. While Greenleaf always strives to use organic and natural ingredients, they may be limited to availability. Any items identified as organic are certified and will meet those standards. If organic is not available, Greenleaf will use quality natural products, meaning that there will be no added chemicals, artificial colorings or preservatives, and minimal processing is done to maintain the whole food value.
